About *Research Connections*

These data are made available by the Child Care and Early Education *Research Connections* (CCEERC), which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

Research Connections is a partnership among the National Center for Children in Poverty at the Mailman School of Public Health, Columbia University; the Inter-university Consortium for Political and Social Research at the Institute for Social Research, University of Michigan; and the Child Care Bureau, at the Administration for Children and Families, U.S. Department of Health and Human Services.

Terms of Use

Bibliographic Citation:	<p>Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:</p> <p>U.S. Dept. of Education, National Center for Education Statistics. Request for Information on Use of ICPSR Resources:	<p>To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Visit the ICPSR Web site for more information on submitting citations.</p>
Data Disclaimer:	<p>The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.</p>
Responsible Use Statement:	<p>In preparing data for public release, ICPSR performs a number of procedures to ensure that the identity of research subjects cannot be disclosed. Any intentional identification or disclosure of a person or establishment violates the assurances of confidentiality given to the providers of the information. Therefore, users of data obtained from the ICPSR archive and/or any of its special topic archives agree:</p> <ul style="list-style-type: none">• To use these datasets solely for statistical analysis and reporting of aggregated information, and not for investigation of specific individuals or organizations, except when identification is authorized in writing by ICPSR• To make no use of the identity of any person or establishment discovered inadvertently, and to advise ICPSR of any such discovery• To produce no links among ICPSR datasets or among ICPSR data and other datasets that could identify individuals or organizations
Redistribution:	<p>ICPSR data may not be redistributed or sold to other individuals, institutions, or organizations without the written agreement of ICPSR.</p>

Bibliographic Description

ICPSR Study No.: 4075

Title: Early Childhood Longitudinal Study [United States]: Kindergarten Class of 1998-1999, Third Grade

Principal Investigator(s): United States Department of Education. National Center for Education Statistics

Series: Early Childhood Longitudinal Study (ECLS) Series

Bibliographic Citation: U.S. Dept. of Education, National Center for Education Statistics. EARLY CHILDHOOD LONGITUDINAL STUDY [UNITED STATES]: KINDERGARTEN CLASS OF 1998-1999, THIRD GRADE [Computer file]. ICPSR version. Washington, DC: U.S. Dept of Education, Institute of Education Sciences [producer], 2004. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 2004.

Scope of Study

Summary: The Early Childhood Longitudinal Study, Kindergarten Class of 1998-1999 (ECLS-K) focuses on children's early school experiences beginning with kindergarten through fifth grade. It is a nationally representative sample that collects information from children, their families, their teachers, and their schools. ECLS-K provides data about the effects of a wide range of family, school, community, and individual variables on children's development, early learning, and early performance in school. This data collection contains the wave of data collected in the spring of third grade (2002). The third-grade data collection includes information about the diversity of the study children, the schools they attended, and their academic progress in the years following kindergarten. Other variables include child gender, child race, family background, childcare, childcare arrangements, food security, hours per week in child care, socioeconomic status, household income, highest level of education for parents and students, parents' employment status, teachers' evaluation practice, and usefulness of different activities in the classroom.

Subject Terms: birth, child care, child development, early childhood education, elementary education, family life, infants, kindergarten, mathematics, minority groups, preschool children, reading skills, school, school age children, school readiness

Geographic Coverage: United States

Time Period: Spring 2001-2002

Date of Collection: Spring 2002

Universe: Children and their families, teachers, and schools in the United States.

Data Type: survey data

Data Collection Notes: (1) Since the sample for the third-grade data is collected from all of the base-year respondents and children who were brought into the sample in the spring-first-grade wave, the documentation for the base-year and first-grade data are included as part of this collection. The data for the base year and first grade are available separately as EARLY CHILDHOOD LONGITUDINAL STUDY [UNITED STATES]: KINDERGARTEN CLASS OF 1998-1999 (ICPSR 3676). (2) The codebooks, data collection instruments, and user guide are provided by the data producer as Portable Document Format (PDF) files. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided on the ICPSR Web site.

Methodology

Sample: ECLS-K utilized a multistage probability sample design to select a nationally representative sample of children attending kindergarten in 1998-1999. The Third Grade sample consisted of all children who were base year respondents and children who were brought into the sample in spring-first-grade wave through the sample freshening procedure described in section 4.3 of the manual and their families, teachers, and schools. The first-grade data collection targeted base-year respondents, in which a case was considered responding if there was a completed child assessment or parent interview in fall- or spring-kindergarten. While all base-year respondents were eligible for the spring-first-grade data collection, the effort for fall-first-grade was limited to a 30-percent subsample. The spring student sample was freshened to include current first graders who had not been enrolled in kindergarten in 1998-1999 and, therefore, had no chance of being included in the ECLS-K base-year kindergarten sample. For both fall- and spring-first grade, only a subsample of students who had transferred from their kindergarten school was followed. The third-grade data collection targeted base-year respondents and children sampled in first grade through the freshening operation. As in the first-grade data collection, only a subsample of students who had transferred from their kindergarten school was followed. In third grade, however, the subsampling rate applied to transferred children was slightly higher: children whose home language was non-English (also known as children belonging to the language minority group) and who moved for the first time in third grade were followed at 100 percent. In other words, children belonging to the language minority group who did not move in first grade but moved in third grade were all followed into their new third grade schools. The Third Grade User Manual is

provided as part of the documentation for this collection.

Data Source: Computer-assisted telephone interviewing (CATI) for the parent interviews, computer-assisted personal interview (CAPI) and self-description questionnaires for child assessment, and self-administered questionnaires for the teachers and the school administrators

Extent of Processing: DDEF.PR/ CONCHK.PR/ UNDOCCHK.PR/ UNDOCCHK.ICPSR/ REFORM.DATA

Access and Availability

Extent of Collection: 3 data files + machine-readable documentation (PDF) + SAS data definition statements + SPSS data definition statements + Stata data definition statements + data collection instruments (PDF)

Data Format: Logical Record Length with SAS, SPSS, and Stata data definition statements, SAS transport file, and SPSS portable file

Q58. How important is each of the following in evaluating the children in your class? Q58e. Class participation

Variable Name : A5CLASPA A5 Q58E EVAL CHILD'S CLASS PARTICIPATION
Record Number : 1
Position : 3848-3849
Format : N2.0
Comment : Blanks (no value) in the frequency distribution indicate nonresponse for the entire instrument.

Response	Codes Percent	Unweighted Frequency
